We're transforming 333 and 343 Thornall Street into an impressive, pedestrian-friendly, mini-campus. The comprehensive renovations include new building entrances, renovated modern lobbies, new elevator cabs, and interconnected landscaped walkways.

A wealth of new amenities are being added as well, including a state-of-the-art fitness center with classes on an outdoor quad, and a conference center and multi-purpose room equipped to accommodate large meetings. Tenants will enjoy many new exciting food options including; a café serving a variety of freshly prepared foods at 333, a coffee bar with grab-n-go in the lobby of 343, and a food truck park with free wi-fi and outdoor seating.

If you're looking for an all-new, contemporary office space with abundant conveniences in a campus-like setting, then 333|343 Thornall Street is definitely the right move.
